

Md Masud Rana

MERN Stack Developer | Next.js~TypeScript | Sakoa, Boda, Panchagarh, Bangladesh

+88-01976350591 | mdmasudrana31m@gmail.com | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Next.js & MERN Stack Developer specializing in building scalable, type-safe full-stack web applications. Delivering pixel-perfect, responsive user interfaces with (**React/Tailwind**) CSS, combined with robust backend architectures using Node.js, (**Express/MongoDB**). Experienced in Docker-based deployments, secure authentication flows, and maintaining high code quality standards within collaborative, agile environments.

SKILLS

Frontend: Next.js, React.js, TypeScript, Tailwind CSS, SASS/SCSS, Redux Toolkit, Framer Motion, Material UI, Shadcn

Tools/Technologies: Git, GitHub, Docker, Jira, Agile/Scrum, Husky, TanStack Query, Axios, Figma, Postman

MERN Stack & Security: MongoDB, MySQL, Express.js, Node.js, Auth.js, Clerk, Zod, Bcrypt, JWT

WORK EXPERIENCES

Freelance Frontend Developer (Collaborative)

Partnered with Senior Backend Engineers to deliver a full-stack solution. **Jul 2025 - Present**

- Delivered **multiple production-grade full-stack projects**, achieving a **20% reduction in page load times** by implementing **Next.js** optimization techniques, fully type-safe UIs using **TypeScript** and **TanStack Query**.
- Partnered with backend developers** to integrate complex RESTful APIs, utilizing **Jira for Agile task** tracking and Husky/ESLint to maintain code consistency.

PROJECTS

Lucky-Fruits Game Platform (Live) | [Live Demo](#)

Feb 2026 - Present

- Developed a real-time, multi-user slot-style game platform with dynamic reel animations, win/loss logic, and API-driven gameplay flow.
- Implemented secure backend integration for user authentication, balance management, and transaction handling using Express and MongoDB.
- Optimized UI performance with React hooks, state management, and smooth animation handling, ensuring responsive and engaging user experience across devices.

Super777 Game Platform (Live) | [Live Demo](#)

Dec 2025 - Jan 2026

- Built and deployed a live slot-style gaming platform featuring real-time spin logic, dynamic win/loss calculation, and seamless API integration.
- Developed secure user authentication, wallet management, and transaction flow using Node.js, Express, and MongoDB.
- Designed responsive, high-performance UI with React/Next.js and Tailwind CSS, optimizing animation flow and reducing UI latency for smooth gameplay experience.

Food-Delivery E-commerce App (Live) | [Live Demo](#)

Oct 2025- Nov 2025

- Developed a full-stack food delivery platform with dynamic product listing, cart management, and secure checkout functionality.
- Implemented user authentication, order tracking, and admin dashboard features using Node.js, Express, and MongoDB.
- Designed a fully responsive, SEO-friendly frontend with Next.js and Tailwind CSS, ensuring optimized performance and seamless user experience across devices.

EDUCATION

Frontend Specialization & Modern Web Development

- ★ Dedicated full-time effort to mastering modern technologies with professional coding standards.

2024- present

Mangrove Institute of Science and Technology, Khulna, Bangladesh

- ★ Computer Science (Diploma in Engineering) | *Running*

2022 - jul 2026
